

# Someone I Love died

Someone I love died. I feel  
very sad. It is okay to cry.

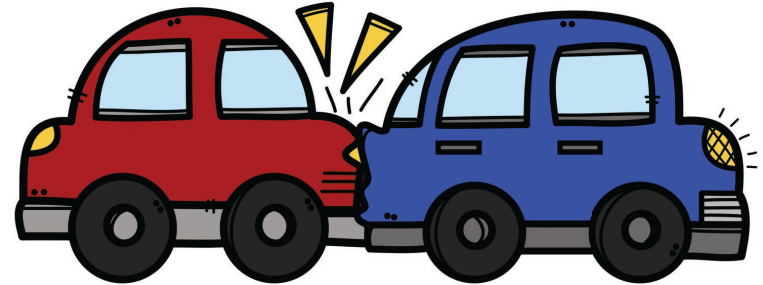

Most of the time, people die  
when they are old or sick.

Sometimes younger people die.

There are times when people die suddenly. This is a shock.

It might be because of an accident or because of an illness nobody knew that they had.

When a person dies, they  
do not come back.

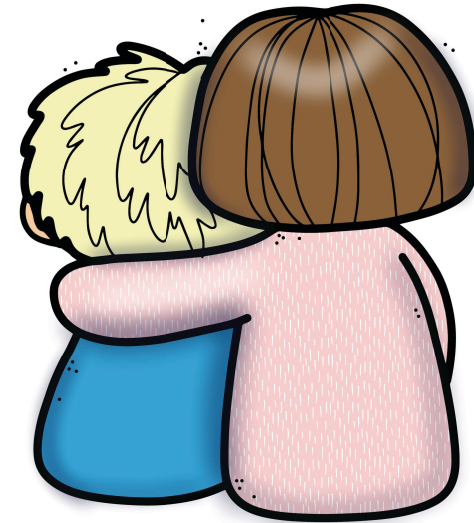

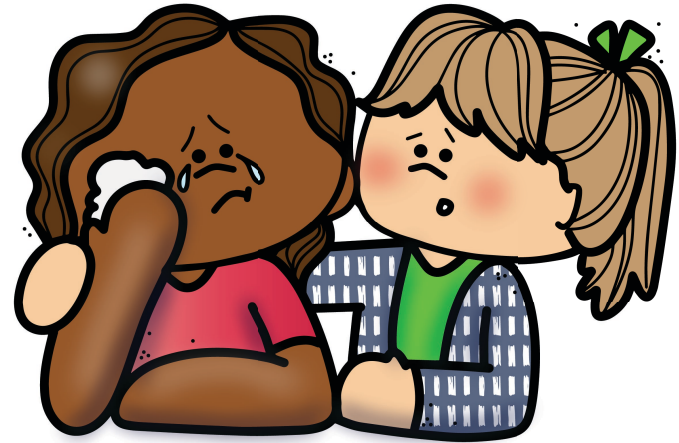

I can look at pictures and  
think about all the good  
memories I have.

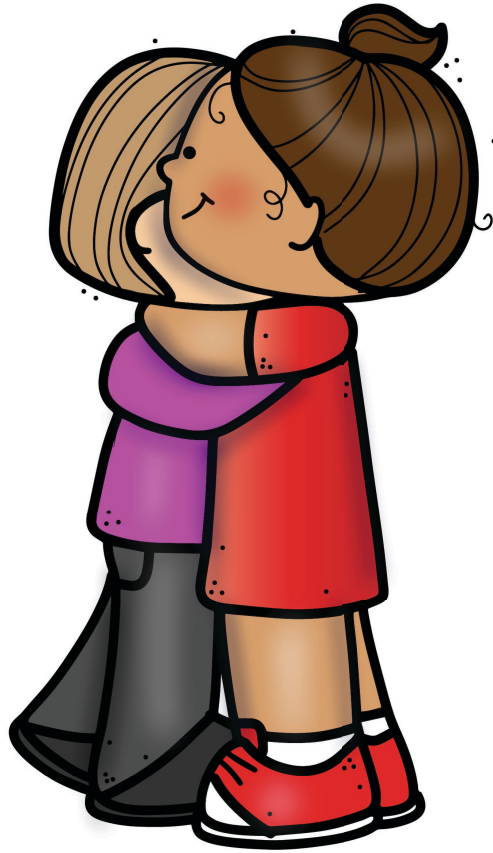

After somebody dies, there is usually a funeral. A lot of people come together to remember the person who died.

Many people cry at a funeral. There are also a lot of hugs.

When I am missing my loved one who died, I can talk to my family. They can give me hugs and help me.

It is very sad when people die. I may feel very sad for a while. Slowly, I will start to feel better.
